DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-11 is that the prior art does not show or make obvious a method and apparatus for testing a power transmission component as shown in claims 1 and 7. Applicant discloses a method and apparatus comprising applying an axial force to a thrust bearing, coupled to a first end of a first shaft, while establishing a negative torque in a locked gear train which opposes a positive torque produced by a prime mover, to ultimately produce a power level in the locked gear train which is greater than a power level produced solely in the prime mover. This limitation in combination with other limitations of the claims renders this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Takisha Miller whose telephone number is (571) 272-2184. The examiner can normally be reached on Monday - Friday (7:00 am - 3:30 pm).
